RE: Eligibility Requirements for Student-Athletes in Grades 9-12

DA: December 14, 2020

On Friday, December 11, 2020, the OHSAA Executive Director's Office decided to implement Article 6-1-9 and waive eligibility through the end of the **second** semester of the 2020-21 school year (as they did in May of 2020 and again in October 2020). CHS will abide by this recommendation, and would like to recommend additional requirements for those high school students who fall short of passing five one-credit classes (or the equivalent).

- 1) For **Face to Face** students wishing to play a sport in any proceeding grading period, but failed to pass five one-credit classes (or the equivalent):
 - a) To remain eligible they must also attend after-school study tables at CHS a minimum of two times per week to complete prescribed work to recover lost credit.
- 2) For **Remote Learners** wishing to participate in a sport in any proceeding grading period, but failed to pass five one-credit classes (or the equivalent):
 - a) To remain eligible students may return to CHS for the Face-to-Face learning option AND attend after-school study tables at CHS a minimum of two times per week to complete prescribed work to recover lost credit **(OR)**
 - b) They may choose to continue as a Remote Learner AND attend after-school study tables virtually via video conferencing or face to face at CHS a minimum of two times per week to complete prescribed work to recover lost credit.

*Students with three or more unexcused absences from study tables may be declared ineligible. (See the Student Handbook (p. 4) for legitimate types of excused absences.)

*Students will be assigned to complete work using APEX, an on-line learning platform, or individualized assignments monitored by a classroom teacher.

*The CHS Building Principal and Athletic Director, in consultation with the Head Coach, will make the final decision on a student-athlete's eligibility.
