

**COLLEGE CREDIT PLUS
ALTERNATIVE FUNDING STRUCTURE AGREEMENT**

This agreement is between the Coshocton School District (the District) and Muskingum University (the University). The University has agreed to collaborate with the District to offer college-credit bearing courses (CCP courses) listed below to qualified high school students in the district according to the following conditions:

CCP course, credit hours and terms in which they are to be offered:

FA 24: EDUC 110 (1) EDUC 101 (1) (Full year)

SP 25: EDUC 112 (3)

CCP courses offered for Muskingum University credit:

- 1) Are part of the approved Muskingum University curriculum
- 2) Count toward a Muskingum University degree
- 3) Follow the course syllabus and assessment protocols as the same course offered on the MU campus
- 4) Are taught at the high school by high school teachers approved by Muskingum and who meet the ODHE credentialing requirements, or on campus by regular or approved adjunct MU faculty.

CCP course access will be facilitated by Muskingum University:

- Based on the interests and needs of our partner high schools, college courses will be offered to students during the day in their own high school classrooms. *For more information about this option, please contact Kelly Coffey at 740-826-8034 or via email at kcoffey@muskingum.edu*

Per-Credit Tuition:

- Muskingum University will charge a tuition rate of \$65 per credit hour for CCP courses offered on the high school campus and taught by a qualified instructor employed by the high school.

In compliance with the regulations set forth by the state for this program, Muskingum University will:

- 1) Facilitate three hours of professional development for high school teachers serving as adjuncts in CCP courses. Teachers may have the option of purchasing graduate academic credit for their participation.
- 2) Facilitate an observation of each high school teacher serving as an adjunct in a CCP course during the 2024-2025 academic year.
- 3) The primary source of information about CCP for students and their parents will reside with the district's CCP coordinator. Muskingum will collaborate with partnering schools to help provide information about CCP options to students and parents. This includes participation at school-sponsored events where appropriate. Muskingum University will also provide CCP information on the University website.
- 4) Provide access to timely academic advisement to high-school-student participants in CCP courses.
- 5) To qualify for enrollment in a CCP course, a high school student must 1) be eligible to participate as per the CCP Student Eligibility guidelines and 2) complete the CCP application process, including submission of required test scores, academic transcripts, a recommendation from a content instructor (preferred) and a signed permission slip (found on application).
