Daily rates are based on the cost to provide the service, excluding any district specific requests. Variables affecting costs include, but are not limited to salary, fringe benefits including health insurance, Medicare and retirement as well as administrative/fiscal overhead, mileage, professional development offerings, tuition reimbursement program, equipment/supplies and other support needed to provide the service.

All costs are calculated on a cost reimbursement basis. Program costs are calculated based on the number of months students are enrolled. The more months' students are enrolled in the programs result in lower shared costs to districts. Costs are estimated and recalculated at the end of the fiscal year.
